

Media Storage World™ 2007

MSW 2007 was published in May 2007
-20% Discounted Prices No Longer Available

Survey Description

General Overview:

Media Storage World™ 2007 is the first global survey of media storage systems ever conducted, with coverage of broadcast & audio-video related media storage systems and associated drives, and slated to become the most comprehensive syndicated market research survey ever conducted regarding these products. Sectors covered include: broadcast TV stations, cable stations, production and post-production and institutional facilities in terms of product and market coverage, influences and overall reporting detail. In May 2007, we published a comprehensive report, showing all results in Total (all sub-markets) and one report each for the four (4) major geographic regions. Those reports will be modularly available for purchase.

Key Issues:

Professionals often use servers for limited storage, or individualized smaller storage arrays where servers or mass storage systems don't seem appropriate, but beyond their capacity there is a need for mass storage on the high-end and this study helps to clarify and illustrate the differences. Among key issues to be clarified by *MSW 2007* are: storage styles, market trends, storage capacity in bytes and hours/days, storage workflows, use and preference for type and brands of drives, perception and preferences for new drive technologies, types of 'rich media' stored and many other technology trends attendant to storage in broadcast and professional environments. (Servers are studied in our *Broadcast Servers World™* global reports each year).

Deliverables:

The sponsors receive a CD-ROM copy of the survey results (containing PDF sections) for those regions they have sponsored and/or for the global totals if they have sponsored the survey on a global level. Sponsors also receive a hard copy set of the data. Our new style of report now features more analysis, more section summaries and less pages of unneeded detail. There is even a 'leaders summary' that provides an easy to absorb view to your senior executives.

The Market, Universe Size and Response Level Sought is 600:

This global survey covers four regions: USA, EMEA (Europe, Middle East, and Africa, Asia and the Americas—these regions closely follow manufacturer's sales territories—for activity among broadcast TV and cable TV stations, production and post-production facilities markets, shown with an estimated total universe size in terms of number of sites and the trends and products questions of the study from which projections are made.

Market Segment & Regional Universes

Vertical Markets	States United	Europe ME/Africa	Americas	Asia	total global 2005 Survey Response sought*
------------------	---------------	------------------	----------	------	---

Broadcast TV Cable & Sat Institutional facilities	60	50	20	30	160
Production & Post Facilities	30	20	10	20	80
Total User Markets	150	120	50	80	400

DIS Multi-client Studies

Overall Design:

The design of *Media Storage World™ 2007* was designed to be the benchmark survey of Media Storage equipment world wide, and 37 years of experience that Douglas I. Sheer, DIS Consulting Corporation's CEO, has had in a variety of marketing, publishing, advertising, consulting and research positions and, on the 25-year record his firm DIS Consulting Corporation has had in conducting custom, large-scale multi-client and proprietary end-user and dealer market research in professional imaging and communications in the United States and Europe since 1982. In all, Sheer and his firm have served more than 1,100 industry clients.

Other recent multi-client studies include: *Video Editing World™ 2007*, *Video Graphics World™ 2007*, and *Video Switchers World™ 2007*. Another study, *Professional Camcorders World™ 2006* was published earlier this year. DIS Consulting Corporation also conducts numerous custom projects each year and publishes 18 global reports annually.

Staff Experience:

DIS Consulting Corporation maintains five regular staff and utilizes a project staff of five others on its syndicated projects. This core research group is augmented by use of other freelancers, as appropriate, for the individual projects undertaken.

Method Used

Our Mixed-method:

The syndicated multi-client research methodology used by DIS Consulting Corporation features a combination of a classical direct mail self-completion interviewing technique, where respondents fill out a pre-coded booklet-questionnaire, with a C. A. T. I. Telephone interviewing technique, as well as data collection via an on-line website.

The installed base is taken, census style, and 12 months past purchases and plans to purchase over the next 12 months are also gathered. Other sections have questions on media and shows, equipment budgets, purchase authority, brand image, staffing and technological trends.

Incentives:

Survey respondents receive a *Media Storage World™ 2007* end-user report for their help, which we estimate to be worth at least \$650 USD to them.

Clients Provide Inputs to Questionnaire and Report Format and Design:

The questionnaire is designed to inventory installed brands and models, and stations, by product category. Data entry and computer tabulation is then done using a network of personal computers running the proprietary tabulation program. Microsoft Excel™ is used for the spreadsheets (tabs) and analysis is written in MS Word. A variety of color charts and graphs are provided, taken directly from the Excel spreadsheets. At the end of the project, clients receive a CD-ROM of all the data.

List Sources & Sample Design

Sample Frame and Lists Sourced:

The *Media Storage World™ 2007* project uses a list of the television stations and production or post facilities from IBC, NAB, Broadcast Asia and the *Broadcasting & Cable* magazine's *Broadcasting & Cable Yearbook* by Reed Elsevier Business Lists, a division of Cahner's Direct Marketing Services for cable. We target chief engineers or the equivalent senior technology executive at TV and cable stations in the U.S. Production and Post-Production names are also sourced from The Yellow Pages across the U. S. In Europe, the Middle East and Africa, Asia and the Americas Kemps International, The SMPTE Membership Guide, The World Guide to Film & TV and specialized in-country directories are also used. Institutional names are drawn from O'Dwyers Guide and other sources. The RTNDA list of news directors is also sourced to improve NEWS/ENG use coverage.

Avoiding Duplication:

Every effort has been made to avoid overlap and duplication in the lists utilized. A merge/purge program gets run to sort and be sure that only one questionnaire per targeted name is mailed. Top ranked firms are targeted.

Lists by Region and Marketplace

<u>Markets</u>	<u>USA</u>	<u>Europe/ME/Africa</u>	<u>Asia</u>	<u>Americas</u>

Format of Reporting Data

Summary tables, color Excel charts, graphs and a written summary sections show both quantitative and qualitative results in each section or product category and are prepared using Microsoft Word™ 6.0, and Excel™ 7.0. The tables showing full corporate results and regional information for all questions asked are also provided. The report is also on a computer disc. There are three types of reports available:

1. Product Report

- **Storage System and Drive product categories and related storage aspects will be surveyed**
- **Unit and market value data**
- **Brand and leading model market shares**
- **Installed base (owned)**
- **Purchases in the past 12 months and value (2006)**
- **Plans to buy in the next 12 months and value (2007)**
- **Prospects for out years (5-year forecasts)**
- **Custom reports available (special cross-tabulations)**

2. General Marketing & Media Report

- **Trends relating to the overall state-of-the industry**
- **Equipment budgets and buying habits**
- **Demographics**
- **New Technologies, applications and trends, such as IP, etc.**
- **Applications planned/used for VOD, streaming, MPEG, SANs, RAID, etc**
- **Trade magazine readership and trade show attendance and preference**

3. Brand Image Report

- **Brand image ratings for pre-field, front-end sponsors only (all leading brands)**
- **Designed to assist companies identify and leverage market positioning, and brand share**
- **Key marketing performance attributes including: product reliability; after-sales service; pricing; quality**
- **Ratings compared by brand, and by each factor, as well as by overall Composite Brand Image. All charts also show the Industry Average**

Pricing & Terms:

Pricing is based on the number of regions required. Each product category purchase includes the General Reports. The Brand Image Reports are included with a purchase of three or more regions. Pre-Publication Sponsor prices were lower than post publication prices (May 2007 and beyond). Consult us for Package and Custom Cross Tabulation Pricing.

Media Storage World™ 2007 The first Global Market Survey	Pre- Publication Price	Post- Publication Prices
Report Type*	Orders No Longer exists	Orders After Publication after May 31st, 2007
Regional Reports		
• 1 region / both products	\$5,950	\$7,140
• 2 regions / both products	\$6,961	\$8,353
• 3 regions / both products	\$8,144	\$9,772
• ALL 4 regions (Global FULL Sponsorship – Both products ... Systems & Drives)	\$9,950 <u>FULL</u> <u>GLOBAL</u>	\$12,050 <u>FULL</u> <u>GLOBAL</u>
<i>The following sections are FREE with the above packages OR available a la carte at the rates illustrated below</i>		
Global Brand Image Report	\$3,495	\$4,194
Single Region Brand Image Report	\$2,495	\$2,994
Global Trade Media & Shows Sections	\$3,495	\$4,194
Regional Trade Media & Shows Sections	\$2,495	\$2,994

* General Report is FREE with orders of one or more regions

** Brand Image Report is FREE to sponsors of one or more regions

Terms are that the down payment of fifty-percent (50%) of the fee is due on subscription (sponsorship) with our invoice and the remaining fifty-percent (50%) payment on our delivery of the report(s) to you. All payments must be made in USD and when made from foreign countries are to be made by bank wire transfer. In the U. S. a USD funds check is acceptable.
